Blue Angel: WEIGHT REDUCTION FORMULA  
Blue Angel: HORMONE REPLACEMENT THERAPY  
Blue Angel: HEALTHY PROSTATE FORMULA  
Blue Angel: INTENSIVE ANTI-CELLULITE THERAPY

What is claimed is:

7. A method of inducing weight loss and/or fat loss in humans in need thereof, wherein a composition comprising the administration of effective amounts of natural herbs and dietary supplements such as: Vitamin C (500mg), Vitamin B6 (15mg), chromium (100 mcg), forslean (100mg), garcinia gambogla (1000mg), green tea extract (500mg), eleutherooccus senticosus (500mg), guggul extract (500mg), bitter orange (50mg), kelp (250mg), bladderwrack (300mg), dandelion (500mg), kola nut (200mg), guarana (250mg), L'carnitine (500mg), dL-phenylalanine (500mg), L'tyrosine (500mg), and conjugated Linolenic Acid (1000mg); said amounts being sufficient to stimulate metabolic function, boost energy, control carbohydrate cravings and consume stored body fat.
8. A method wherein, according to claim 7 said ingredients are compressed into tablet form and administered orally.
9. A method of claim 8 wherein a total of 6 tablets are taken orally daily one half hour before meals with a full glass of water.
10. A method of claim 7 wherein said ingredients are for treating over-weight or obesity, symptoms comprised of excess volume of body fat as compared to normal and healthy ranges publicly stipulated.
11. A method of claim 10 wherein said ingredients provoke a normal body weight.

12. A method of Hormone Replacement Therapy reducing symptoms associated with menopause, such as hot flashes, edema, fatigue, mental confusion and forgetfulness, hormone unbalance, bone degeneration and depression, which comprises administering to a human perimenopausal or menopausal female, comprising of the administration of this composition of effective (+) amounts of natural herbs and dietary supplements in the amounts of: Vitamin C (250mg), vitamin D (250IU), vitamin E (150IU), Vitamin B6 (50mg), Pantothenic Acid (125mg), calcium (250mg), magnesium (75mg), chromium (50 mcg), CoQ10 (50mg), Bioflavonoids (250mg), dandelion root (250mg), coleus forskoli root (50mg), Don Qual (125mg), green tea extract (150mg), grape seed extract (150mg), uva ursi (250mg), hawthorn extract (50mg), skullcap (150mg) larex immune enhancer AG (250mg), chasteberry (250mg), black cohosh (250mg), ginkgo biloba extract (30mg), Mexican wild yam (30mg), curcumin (250mg), bioperine (5mg), CoQ10 (50mg), soy isoflavone extract (100mg), bioflavonoids (250mg), gamma-oryzanol (75mg), CLA (250mg), and L-glutamine (250mg); said amounts being sufficient to provoke a substantial decrease of menopause symptoms and cause normal: body temperatures, energy levels, water volume, mental clarity and memory, youthful hormone balance, healthy bones and emotional disposition.
13. A method of claim 12 wherein menopausal symptoms: atrophic vaginitis, bladder infections, breast tenderness and PMS, cold hands and feet, depression, endometriosis, fatigue, fibrocystic breasts, forgetfulness and lack of concentration, headaches, heart disease, hot flashes, insomnia, joint and muscle pains, low libido, mood swings, anxiety and irritability, night sweats, osteoporosis, uterine cramps, and weight gain; are significantly reduced or eliminated without the risk of degenerative disease (stroke, heart disease, cancer) provoked by conventional hormone replacement treatments.
14. A method of claim 12 wherein (+) natural herbal and dietary supplement Ingredients are administered orally as a tablet or a capsule.
15. Method of claim 14 wherein a total of 6 tablets are taken daily administered orally.

16. A method of maintaining healthy prostate function, which comprises administering to a human middle aged male, a composition of effective (+) amounts of natural herbs and dietary supplements in the amounts of: Vitamin C (500mg), vitamin D (200IU), vitamin E (400IU), vitamin B-6 (100mg), Calcium (100mg), Magnesium (200mg), Chromium (100mcg) zinc (20 mg), selenium (200 mcg), Indole-3Carbinol (300mg), forslean (100mg) pregnenelone (50mg), lycopene (10mg), saw palmetto (250mg), pygeum (100mg), nettle leaf powder (500 mg), sterols (10mg), green tea extract (300mg), curcumin powder (500mg), bioperine (5mg), fatty acids (50mg), GLA (50mg), CLA (250mg), L-Glutamine (450mg), L'glycine (100mg), said amounts being sufficient to provoke healthy prostate function and for the treatment of benign prostatic hyperplasia; without altering PSA concentration, thus poses no risk of undetected prostate cancer.
17. A method of claim 16 wherein symptoms of benign prostatic hyperplasia; urinary hesitancy, weak or interrupted urine flow, nocturia, pain or burning sensation during urination or ejaculation, urinary retention, increased urinary frequency, incontinence, pain or stiffness in the lower back, hips, or upper thighs; are significantly reduced and/or eliminated.
18. A method of claim 17 wherein regular prostate function is restored to normal urine flow and frequency, blocks estrogen binding, decreases prolactin production, enhances the immune function, decreases bladder hyper contractility and decompensation.
19. A method of claim 18 wherein relief of symptoms of benign prostatic hyperplasia, results closely simulate actions produced by 5 alpha reductase inhibitors and alpha-adrenergic blockers.
20. The method of claim 16 wherein (+) Ingredients are administered orally as a tablet.
21. Method of claim 20 wherein a total of 5 tablets are taken daily administered orally.

22. A method of reducing symptoms associated with cellulite deposits, which comprises administering to a human usually a female, a composition of effective (+) amounts of natural herbs and dietary supplements in the amounts of: Vitamin C (250mg), Vitamin B6 (15mg), Vitamin E (150IU), Chromium (100mcg), forslean (100 mg), ginkgo biloba (20mg), bladderwrack (50mg), gotu kola extract (100mg), cinnamon (50mg), grape seed extract (150mg), kelp (100mg), evening primrose (200 mcg), sage leaf (100mg), uva ursi (200mg), lecithin (300mg), senna leaf (50mg), cascara sagrada (50mg), 5-hydroxy tryptopan (1000mg), dandelion (100mg), bioperine (5mg), L'carnitine (100mg), and conjugated linolenic acid (1000mg); said amounts being sufficient to provoke a substantial decrease cellulite fat deposits on the human body.
23. A method of claim 22 wherein cellulite symptoms: tissue damaged by the malfunction of the organic systems, inefficient waste elimination by the lymphatic system and the blood stream, deficient blood microcirculaiton, nodule growth stimulation (fatty cells that have grown in size due to the accumulation of toxins, water and fat), lack of oxygen circulation at the cell level, and formation of fibroblasts (fiber around the fatty tissue); are significantly reduced or eliminated with effective amounts of said ingredients.
24. A method of claim 23 wherein lipotropic, detoxifying and lymphatic activity is substantially increased to promote proper circulation and elimination of toxic waste.
25. A method of claim 22 wherein thermogenic and vasodilatation components in effective quantities stimulate the dissipation of cellulite.
26. A method of claim 22 wherein effective quantities of said ingredients stimulate circulation, metabolism and purging activity.
27. A method of claim 22 wherein elimination of fat and fibroblasts is facilitated.
28. The method of claim 22 wherein the appropriate blend of (+) natural herbal and dietary supplement Ingredients are administered orally as a capsule administered orally.
29. Method of claim 28 wherein a total of 6 tablets are taken daily administered orally.
